

Sky Controller Platform

Sky Controller Platform

What is it?

Total Remote Control.
Zero On-Site Hassle.

Take Full Control of Your Sky TV Network
— From Anywhere.

The Sky Controller Platform is a powerful yet ultra-lightweight remote management system designed to give businesses complete, reliable, browser-based control over Sky TV boxes - no matter how many locations you operate.

With Sky Controller, everything is handled remotely, automatically, and securely.

Control Everything from One Dashboard

No apps, no installs, no complexity
Control devices locally or remotely
Whether you manage one site or hundreds, everything stays simple.

Built for Reliability

Sky TV boxes are notorious for freezing or needing restarts. Sky Controller solves this with full remote power control, allowing you to completely turn devices off and back on — restoring stability without ever being on site.

Powerful Features That Save Time & Money

- Remote Power Management.
- Sleep and wake Sky TV boxes remotely.
- Full power-off and power-on capability.
- Eliminates freezing and long-term performance issues.

One-Click Channel Shortcuts

Instantly switch to the right content at the right time

Schedule channel changes, reboots, and power cycles

Ideal for opening hours, promotions, or unattended locations

Reduces human error and manual work

Each device runs independently for maximum reliability

From a single store to a nationwide rollout,
Sky Controller grows with you

zintek

Lightweight by Design

Sky Controller delivers enterprise-level control with minimal system requirements:

Extremely smallfootprint,
high efficiency.

Works with all
Sky TV models.

No expensive hardware,
No bloated software.

No special
configuration per device.

Universal Compatibility.

One platform,
Total coverage.

The Bottom Line

✓ Build for Scalle

✓ Synchronize Channels

✓ Full automation

✓ Centralised control

Zintek Sky Controller turns Sky TV into a managed,
professional-grade system.

zintek

About Us

Zintek is a family-owned company based in Dublin, established in 2002. Over the years, we have grown to become a leading nationwide provider of technical solutions and services for some of Ireland's largest companies, including Tesco, Boylesports, BT Ireland, Dalata, Exxon, and the HSE.

We serve a wide range of industries such as Retail, Hospitality, Construction, Telecommunications, Healthcare, and Gaming, offering services including Audio-Visual, Wi-Fi, Digital Signage, Electrical, Security/CCTV, and Sustainable Energy Solutions.

Zintek operates with field service engineers based across all 32 counties, providing a 4-hour onsite response, 7 days a week, 365 days a year.
